Project Search Newsletter Nov/Dec 2011

Search Team

Project Search is off to a great start this year.

The interns have completed their first internship. Each of them have done a superb job and learned many things about the importance of attention to detail on their specific internships.

On November 14th, they began their 2nd rotation of internships. Each new internship experience provides new transferable job skills, opportunities to meet new friends, and challenges to push themselves to the next level.
